Related products:

FLEXIMARK® Software 11.0 is used for printing on laser and thermal transfer printer. Within FLEXIMARK® Marking assortment there are many different marking systems and labels available for printing with FLEXIMARK® Software. All accessories mentioned below are available in FLEXIMARK® Marking assortment

Printing on a laser printer (Recommended laser table printers):

- FLEXIMARK® Flexilabels LFL for cable and component marking with character holders
- FLEXIMARK® Cablelabel LFL for cable marking with plastic cable ties
- FLEXIMARK® Wrapping label LCK for cable marking
- FLEXIMARK® Flexiprint LF for wire marking and cable marking for thin cables
- FLEXIMARK® Labels LA for component marking
- FLEXIMARK® LMB labels for wire and cable marking with different collars

Printing on a thermal transfer printer (Recommended CAB thermal transfer printers):

- FLEXIMARK® Flexilabels TFL for cable and component marking with character holders
- FLEXIMARK® Cablelabel TFL for cable marking with plastic cable ties
- FLEXIMARK® Cablelabel PUR for cable marking with plastic cable ties
- FLEXIMARK® Wrapping label TCK for cable marking
- FLEXIMARK® Flexiprint TF for wire marking and cable marking for thin cables
- FLEXIMARK® Labels TA for component marking
- FLEXIMARK® Labels TA Foam for component marking
- FLEXIMARK® Flat shrink tube for shrink tube marking
- FLEXIMARK® Organized shrink tube for shrink tube marking with shrink tube in different lengths
- FLEXIMARK® Flag label for cable marking in small places
- FLEXIMARK® Panel strip for marking in cabinets and other areas

Printing on a Multiprinter with plastic material:

- FLEXIMARK® Cablelabel MTFL for cable marking with plastic cable ties
- FLEXIMARK® Terminal block TB for terminal block marking
- FLEXIMARK® Marking tags TMB for wire and cable marking with different collars
- FLEXIMARK® Plastic core tag for wire marking
- FLEXIMARK® Identification tag TCM for identification component marking
- FLEXIMARK® Stripmarking TCM for component marking
- FLEXIMARK® Legends TCM for component marking with push button holders

FLEXIMARK® Label templates

New label templates for specific marking from FLEXIMARK® Marking assortment, are available for download from www.fleximark.com and are save directly into FLEXIMARK SOFTWARE 11.0 according to the following instructions:

1. Find the label template of the product you need to print out on the website
2. Download the label template and store at optional location
3. Load template within the Fleximark Software

Thermal transfer printers:

Fleximark recommends printing thermal transfer marking with FLEXIMARK® Software on a high-quality CAB Thermal transfer printer.

Thermal transfer CAB EOS printers combine all functions within an industrial printer with highest user comfort. Fleximark AB offers CAB EOS2 for rolls up to 155 mm in diameter and CAB EOS5 for rolls up to 210 mm in diameter.

The CAB SQUIX printers are built for uncompromising permanent operation and for high printing volumes. CAB SQUIX is especially suitable for shrink tube printing and narrow material.

Note:
